## Grapheast presents the unique **Adobe Small-group Workshop Series** by Adobe Certified Instructors

**Advance your professional know-how and work efficiently through acquired skills in Adobe software.**

This workshop series is tailored for groups of 8 people, hence facilitating focused learning and more one-on-one time with the trainers.

The workshops are unique since they are delivered by certified trainers and are designed to cater to a considerable chunk of the professional industry: novice to intermediate. They can help you polish your existing skills or learn new skills in: Digital Publishing Solutions, Adobe Photoshop, Adobe InDesign, Adobe Illustrator, Adobe CS6 Print Production and Adobe Acrobat for Office.

Furthermore, the workshop timings are convenient to slot within your working week, they are specialized for their target trainees and although all are delivered in English, some can be delivered in Arabic as some of our trainers are Arabic speakers.

If you're interested in joining this select group of learners please download the attached curriculum and registration form to receive all the information you need.
